Position: Communications and Marketing Manager

Employer: Genetic Alliance

Classification: Professional, full-time employment

Benefits: Paid vacation, health and holidays, medical, dental, and vision insurance, long-term disability, life insurance, transportation deduction, and employee-contributed 403b plan

Location: 4301 Connecticut Avenue, NW, Suite 404, Washington, D.C. 20008

Salary Range: \$55,000 - \$65,000

Genetic Alliance is a nonprofit health advocacy organization committed to engaging individuals, families, and communities to transform health. For more than 30 years, we have built tools and technology that empower individuals to improve their own health and amplify their voices to better health and access for others. We draw upon a multidisciplinary network of organizations and a large suite of signature websites and tools, including websites such as: geneticalliance.org, expectinghealth.org, diseaseinfosearch.org. We work collaboratively with our partners to push the boundaries of the current systems of biomedical research, care, and support. Our goal is to ensure that individuals, families, and communities (and the organizations who serve them) have access to the information they need to make informed decisions about their health and healthcare. We bring energy and creativity to this task through the diverse experience and expertise of our staff.

General Position Overview:

The Communications Manager will oversee all communications initiatives required to fulfill the Genetic Alliance mission. This person will be responsible for creating and implementing strategies to increase Genetic Alliance visibility and thought leadership. S/he will manage all aspects of Genetic Alliance communications, including the design and delivery of effective public relations strategies and expansion of creative initiatives.

The Communications Manager will supervise a Communications Assistant and work across the organization with multiple teams. This position requires an experienced and highly creative individual with the energy, commitment, and skill to direct, manage, and expand Genetic Alliance communications using both traditional (legacy) and new media strategies.
