Genomic Translation for Public Health

April 9, 2010
12:15-1:15 PM

Welcome

12:15 – 12:20: Today's webinar, Jody Platt, Past Chair, APHA Genomics Forum

12:20-12:25: Introductions, Toby Citrin, Director, Center for Public Health Genomics

12:25 – 12:40: Muin Khoury, Director Office of Public Health Genomics, CDC

12:40 – 12:55: Deb Duquette, Michigan Department of Community Health

12:55 – 12:10: Your questions

12:10 – 12:15: Wrap-up and next steps

Today's webinar

- Sponsors
 - APHA Genomics Forum
 - Genetic Alliance
 - Center for Public Health and Community Genomics
- Genomics Translation for Public Health
 - What does this mean?
 - What do we want it to mean?

Goal

- Share an understanding of issues in translating genomic research into public health applications
- Discuss how these issues might be addressed.

Asking questions... we want to hear from you

- Type your questions and comments to the webinar panelists
- They will be organized as we receive them and will be addressed at the end of the presentations

Introductions

- Toby Citrin, Director, Center for Public Health and Community Genomics

- *Toby to continue introducing speakers, session...*

Your questions and comments

- Clarifying questions for Muin
- Clarifying questions for Deb
- Questions for panelists (all)

Next steps

- How might a working group turn the ideas presented today into action?
- Working group meeting:
 - April 21, 2010 12pm (Eastern)
 - If you're interested, email Nicole Exe nexe@umich.edu
